

## 2011 Grapevine Referendum Crime Control and Prevention District Renewal

In November 2006, Grapevine voters approved a proposition to fund a Crime Control and Prevention District (CCPD) for a five-year period. With the term up, the City Council has called an election on May 14th to renew the CCPD for 15 years.

Funds from the CCPD have maintained police patrols, technology upgrades and new crime-fighting programs. Using one-half cent of the City's sales tax, the CCPD has freed up general revenue funds for other needed City projects and basic City services like roads and parks.

Here are the facts about the CCPD:

### Revenue for safer neighborhoods.

- Thanks in part to the police programs funded by the CCPD and crime prevention efforts, the number of major crimes in Grapevine was five percent lower last year than the year prior to the CCPD.
- The CCPD has helped fund new programs like Grapevine's community policing effort that was honored with the Outstanding Crime Prevention Agency Award by the Texas Crime Prevention Association.
- Part of the money raised by the CCPD helps fund an "Internet Predator Education Campaign" with the Grapevine Police Department.

### No increase in property tax.

- The CCPD was originally funded by a one-half cent sales tax increase. Renewal of the District will not result in higher property taxes, nor will the renewal of the CCPD change the existing sales tax rate of 8.25%.

➤ Eighty percent of the CCPD sales tax is paid by visitors and tourists from outside Grapevine. According to a 2006 analysis by the Center for Economic Development and Research at UNT, the average Grapevine resident pays only about \$1 each month in sales taxes to fund crime control efforts.

## Grapevine Parks and Recreation Master Plan Update

The City of Grapevine is in the process of updating the Parks and Recreation Master Plan.

The process began in July 2010 with a citizen survey; over 600 surveys were returned. The next process was feedback on parks and recreation facilities from seven focus groups made up of approximately 20 per group. Then the City Council and Parks & Recreation Advisory Board members gave their input.

The next step was a public meeting on April 12th at the Lancaster Theater. The meeting began with the consultant giving an overview of the process and the major recommendations in the Plan. There were several stations in the Theater where citizens came to hear more detail about lake parks, trails, recreation facilities, etc. Citizens filled out forms with comments about the plan. All comments were forwarded to the City Council for review and consideration.

There will be a final public meeting on Tuesday, May 17th where citizens can again give input on the Plan. The Plan will be on the City Council Agenda that evening for consideration and approval. 🍇

## Senior Activities Center (SAC)

All activities are available to adults 55 years and better. The SAC is located at 421 Church Street. Please call us at 817-410-8130 for more information.

# GREENER Cleaner Grapevine

## Lawn Care and the Environment

Everyone has probably had a neighbor at one time or another that sweeps, blows, or otherwise distributes grass clippings and leaves to the City right of-way. Aggravating? You bet! Hold onto your hats: It is also illegal!

Those materials may eventually enter the storm drain system and find their way into our creeks, streams and lake, where they contribute nutrients that literally choke our aquatic habitats.

Here's a little science lesson for you: When organic materials (leaves and grass) break down, their nutrients feed the algae in our waterways. The algae blooms and then uses up all the nutrients. The algae then starve and are broken down by bacteria. All of these bacteria then use the oxygen in the water, which suffocates the aquatic life in the area. Therefore, it is best to bag your lawn waste or,

better yet, leave it on the lawn.

Among the many benefits of "grasscycling" include:

- Reduced solid waste landfill
- Greener and tougher turf
- Turf disease prevention
- Reduced fertilizer needs
- Thatch (thick buildup of roots) prevention
- Yard maintenance reduced
- Water needs (and cost) reduced

Additionally, make sure you only use fertilizers, herbicides and pesticides as needed, and apply them only to the lawn. Over-use and improper application can have adverse effects by either supplying too many nutrients and/or killing plant and animal life in our waters.

### For Middle and High School Ages

"Going Global, Staying Connected!" YA Summer Reading Club begins Saturday, June 4th. Programs will be held on Thursdays at 2 pm for middle and high schoolers:

June 9	2 pm	Intro to Hip-Hop Dance
June 16	2 pm	Stunts & Stage Combat
June 23	2 pm	Roots of Rhythm: A Drumming Adventure
June 30	2 pm	Wii: Mario Kart

### Adults

"Reading Makes Cents!" Sign up for the Adult Summer Reading Program and enter our drawing for numerous prizes each week. Every book you read earns another ticket in the drawing, so the more you read, the better your chances. Thanks to the Friends of the Library, we will be offering several programs throughout the summer that go along with the theme of saving money. The first program is:

### Artcycle with VET

Discover the wonderful world of art using unique recycled items creatively. Artist VET of the Found Objects Art Studio offers practical solutions to reduce, reuse, and recycle. On Saturday, June 11th learn how to save money by using discarded items for artistic purposes.

More programs are being added. Check our website [www.grapevine.lib.tx.us](http://www.grapevine.lib.tx.us) for confirmed dates/times and additional events. 

## 4th Annual Police Department Vehicle and Identity Theft Prevention Event

The Grapevine Police Department is hosting their 4th Annual Vehicle and Identity Theft Prevention on Saturday, May 21st, between 9 am – 2 pm. This free event, taking place in the parking lot across from the Police Department at 307 West Dallas Road, offers residents the opportunity to have their vehicle's windows etched and unwanted, confidential documents shredded.

Vehicle Identification Number (VIN) etching enables the VIN to be permanently acid etched into the major windows of a vehicle. It is a theft deterrent and may entitle you to an auto insurance premium discount. VIN etching allows law enforcement officers to quickly identify your vehicle, and also discourages criminals from stealing your vehicle due to the ease at which it can be traced.

Officers will also provide Child Passenger Safety Seat Inspections, educating and showing parents and caregivers the proper use of child restraint systems and seat belts.

Please join in the fun and bring the kiddos so we can help you keep them safe. We will have activity and coloring books, stickers, giveaways and safety literature.

For additional information, please contact Senior Officers Scott Rhodes, 972-724-2126; Jason Keller, 817-421-2192, or Johnny Jones at 817-410-3209.
